Overall approach

3 + 1 principle

For SGLG qualified LGUs

1. PCF incentives
2. Access to program windows of NGAs
3. Continuing CapDev
4. Access to loans

For LGUs who are unable to hurdle SGLG

Walang iwanan!
1. Continuing CapDev especially in areas where LGU is weak
2. Access to loans, if LGU passes good financial housekeeping
3. Access to program windows, as applicable
SGLG Operational Platform: “The LGPMS is the performance oversight tool and SGLG is the recognition for good governance.”

Piloted in 2010, the Seal of Good Housekeeping (SGH) was successfully promoted to the Seal of Good Local Governance (SGLG) or Pagkilala sa Katapatan at Kahusayan ng Pamahalaang Lokal. The SGLG was introduced to provide a greater challenge for local government units to continue their good governance practices while providing better services and at the same, expanding the coverage of the assessment.

To become an SGLG recipient, an LGU needs to pass all the three core assessment areas - Good Financial Housekeeping, Social Protection and Disaster Preparedness, and at least one from the essential assessment areas - Business-Friendliness and Competitiveness, Peace & Order or Environmental Management.

“The SGLG symbolizes integrity and good performance of local governments. Let it be a continuing challenge for provincial, city and municipal governments to do better today and in the years to come.” - DILG Secretary Mar Roxas.
